At about the dullest session of the season both wheat and corn were sharply on the downturn yesterday. In the case of wheat weather conditions were the sole factor. Early in the day a few of the shorts who had not composed their nerves over Sunday were somewhat active on the buying side, but as soon as they had covered the sellers assumed control. Prospects of clear weather over the winter belt gave promise of heavy receipts. Foreshadowing this condition, the outside demand was light and there was little professional interest.

In the corn market the principal bearish card was a break of more than 5c in the July option in Chicago. This was taken as an indication that the Harris-Gates crowd was getting into deep water. Though receipts were small and there was brisk cash demand, values were easy throughout the session.

July wheat opened the off and closed there off. Sept. opened the off and closed July corn opened %c off and closed %c off. Sept. opened %c off and closed 1%81%c off.

BIG SALE OF REAL ESTATE.

Pekin Parties Buy Farming Tract

An unusually large sale of real estate in a single tract was made in Edwardsville yesterday. William Collins, who resides on West St. Louis street, sold to John Fitz-

on West St. Louis street, sold to John Fitzgerald and Henry Roos of Pekin a tract
of farming land lying partly in Edwardsville and partly in Chouteau Township for
\$70,865.

The land lies along the Wabash railroad,
near Poag, and the SS.SI acres sold for \$90
per acre. It is the third large sale of property in the vicinity within a short time,
Last week George Pastleid bought from
Mrs. Mamie Seiter and her husband, Hiram
Seiter, a portion of the farm immediately
to the south for \$5.276, and about a year
ago Mr. Roos, who figured in yesterday's
transaction, paid \$9,00 for another part of
the Seiter farm.
Land in the American Bottoms is proving a wonderfully good investment, and
other large transactions in it' are anticipated this summer find fall. The crops in
the Bottoms for this summer alone are in
many instances worth more than the quoted
value of the farm on which they were
raised. Potatoes, in many instances, are
bringing in from \$100 to \$15.5 an acre. The
Link Bros., George and M. S., have already thrashea 40.00 bushels of wheat on
their farm at Mitchell.
